

Biological Services

Green Side Up Environmental Services provides our clients with professional biological services. If you or your organization require permit approval, we provide full reports for our clients as well detailed mapping as needed.

Biological Services include:

- Natural heritage writing and articles
- Restoration site management and monitoring
- Habitat compensation design
- Amphibian, vegetation, mammal and bird surveys and monitoring
- Natural heritage evaluations (**NHE**)
- Environmental impact assessments (**EIS, EIA**)
- Detailed biological and ecological inventory mapping
- Wetland evaluations and land inventory
- **Species At Risk Assessments**
- **Butternut Heath Assessments**
- Environmental **grant** application assistance for ecologically minded projects
- **Trent Severn Waterway In Water Works Permit Approvals**
- **Conservation Authority In Water Works Permit Approvals**
